SHOW RULES

The Board in session recently recommended three changes in regards to seedlings. It was realized that most of the shows could not make these changes this year. Chapters were asked to use the new regulations as soon as possible. The three new rules follow:

1. Instead of the regular blue, red and yellow awards for seedlings substitute a special "Merit Award", possibly royal purple in color, to be given to any seedling worthy of further consideration, gold seals to be given to outstanding seedlings. Minor defects not to eliminate gold seals.

2. A seedling may be entered in any and all shows for a full year from its first appearance, and will not be eliminated from the seedling class upon winning a tri-color. When a seedling becomes available comercially it is no longer a seedling.

3. A seedling hybridized by an out of State grower may be entered in our shows by any one he may so designate.

The committee decided to leave the present rule of 25 varieties being the breaking point between Amateur and Collector classes the same. It was suggested by some of the members present that perhaps the solution would be to have a new class called "Non Member". This would give the person who is not a member and hesitates to enter bloom because of a feeling he has no chance in competition with members, a chance to compete with people of the same status.

"Let me show you something in a snappy sedan." suggested the salesman. "I don't think you could," she replied.

"What's the matter with this match?"
"Darned if I know, it was all right a minute ago."
